RE: Edmonton Epilepsy Association Epilepsy Booklets and Free Programs

To Whom It May Concern,

My name is Valeria Palladino, and as the Executive Director of the Edmonton Epilepsy Association, EEA, I reach out to you, through our volunteer connections, to share access to our free booklets program for epilepsy. We hope these resources could populate your school libraries and serve your students and parents' population, your teaching and admin staff, learning about epilepsy. All our programs are offered free of charge.

The EEA is a registered charity, in operation since June 1960. Its vision, mission and values are:

Vision: Empowering people who live with epilepsy.

Mission: To assure the wellbeing of persons with epilepsy through increased public awareness and education and further, to address specific concerns, both personal and social, that these individuals experience. The objective of the Edmonton Epilepsy Association is to promote, in any way possible, an improved quality of life for persons with epilepsy, their families and caregivers.

Values: Empowerment, Respect, Compassion, Dedication, Integrity

As the only non-profit association in the Edmonton and Northern Alberta Region (Red Deer and North), supporting the over 15,000 Albertans living with epilepsy, we take pride in ensuring we are a central body for building awareness, bolster education and provide individualized support for those affected by epilepsy.

Amongst a wide range of services and programs, we wish to point out:

- **Our free Epilepsy Information Booklets** series, which comprises of 11 titles, in English and in French, that are categorized by focus and interest, and provide simple, clear, and comprehensive basic understanding about epilepsy. These can be found online on our website at: <https://edmontonepilepsy.org/information-booklets>, **downloadable for free, but also available for free print copy orders, through our online form.**
- **Our Free Online Live Kids on the Block Performances**, which teach kids in elementary grades about epilepsy. Learn more at: <https://edmontonepilepsy.org/kids-on-the-block/>
- **Our free On-demand Epilepsy 101 webinars**, to teach staff about epilepsy, in case someone in your school lives with the brain condition.

We hope you can share this information with staff at your school. A copy of this letter with a booklets package was sent to your school board earlier in August 2021.

Feel free to connect with me directly and give us an opportunity to say more about our programs and how we can support your school with resources about epilepsy.

Feel free to contact me directly at your earliest convenience.

Sincerely, *Valeria Palladino*
